

Access 2013 Advanced Workshop

This workshop is designed to teach you a deeper understanding of Access 2013 in a practical way. The participants will learn how to use the advance features of Access to help them better manage a database. This workshop incorporates a hands-on approach to learning. They will get a chance to practice some of the advance features right on a computer.

This workshop is meant to provide a safe learning environment where they can practice and learn Access 2013 Advanced functions without worrying about making mistakes. Access 2013 features a new framework that is designed for one purpose—enable users to create data-centric web applications. Taking the time to learn the advanced features of Access 2013 will increase their knowledge on how databases work and make creating and managing an Access 2013 database easier for everyone.

Workshop Objectives:

- Use Views in Your Apps
- Customize Your Apps with Actions and Controls
- Perform advanced record tasks
- Add advanced types of fields
- Use Field Validation options and other advanced field tasks
- Use Table Design View
- Use External Data
