

# Project 2010 Essentials Workshop

---

Your participants will learn how to use the basic features of Project 2010. This workshop is designed to teach you a basic understanding of Project 2010 in a practical way. This workshop incorporates a hands-on approach to learning. They will get a chance to practice some of the advance features right on a computer.

Project 2010 is a sophisticated project management software that can help project managers with planning, assigning resources, tracking progress, managing budgets, and analyzing workloads for projects.

## Workshop Objectives:

---

- Open and close Project
- Understand the Interface
- Create a blank project
- Create a project from a template
- Open and close project files
