

mLearning

Mobile learning, or mLearning, is defined as the delivery of learning, education or training on mobile devices, such as mobile phones, tablets, laptops or PDAs. MLearning allows training and support to be taken anywhere, making it flexible and convenient for companies to use.

With our mLearning workshop, you will begin to see the importance and usefulness of mLearning in any organization. By absorbing the ins and outs of utilizing mLearning, participants will possess the skills needed to take advantage of this new technology, in order to educate employees and clients more efficiently.

Workshop Objectives:

- Know the meaning of mLearning
- Recognize different methods of mLearning
- Know the benefits/challenges of using mLearning
- Train other employees regarding mLearning
- Form an mLearning plan
